STRATEGY ON MINIMIZATION OF PLASTIC WASTE AT UNIVERSITY

Government College Women University Sialkot

1. Purpose

The main purpose of this strategy is to make a zero-plastic environment at university and to introduce eco-friendly products and alternatives of plastic products in university. The main target of our action plan is to minimize plastic waste by reusing, recycling, and holding awareness campaigns at the university. The strategy aimed to encourage the students to participate in plastic reuse and recycling practices.

2. Policy

- Collection of plastic waste done.
- 3Rs rule applied (reduce, reuse, recycle).
- Reusable waste down cycled in reusable practices.
- Alternatives of plastic products introduced at awareness campaigns.
- Scrap plastic upcycled.
- Other plastic waste i.e., plastic straws replaced with organic straws and non-recyclable plastic waste sent for down cycling, upcycling or ultimate disposal.

3. Collaborative Committees: (Annexure 6)

Following departmental and central committees are collaborating in the effective implementation of this strategy:

Serial No.	Notified Committee	Notification No.	Date
1.	Camus Management Committee	D/REGC19/3152	02/12/2019
2.	Departmental committees, Environmental Science Department	GCWUS/ESE/2020/20,21	10/08/2020
3.	Environment and Sustainability Committee	D/REG/Comm/20/85	08/01/2020

4. Review Committee

Environment and Sustainability Committee

5. Methodology:

Following methodology is suggested to attain desired goals:
