

GC Women University, Sialkot

Department of Education

Admission Test (M.Phil Education)

Student Name: _____ Roll #: _____

Date: _____ Students' Sign: _____

Time Allowed: 120 Minutes Total Marks: 100

Invigilator's Sign: _____

General Instruction:

1. Test comprised of 100 MCQs (Education related=70, English=15, Analytical reasoning=15)
2. Ensure your tick marks are clear and well within the designated circles.
3. Usage of ink remover is not allowed.
4. Maintain silence in the examination hall.
5. Each question carries one mark.
6. Extra time will not be granted.
7. Cheating will lead to cancellation of paper.
8. Use of Mobile phone is prohibited in the examination.

1. 'The first step in measurement is?

a) Decision of what to measure	b) Development of the test	c) Administering the test	d) None of the these
--------------------------------	----------------------------	---------------------------	----------------------

2. Syllabus is the part of:

a) Society	b) Classroom	c) Curriculum	d) Activity
------------	--------------	---------------	-------------

3. Learning through insight is presented by

a) Thorndike	b) Kohler	c) Woodworth	d) Pavlov
--------------	-----------	--------------	-----------

4. Alternate-form reliability is also known as

a) Split-half reliability.	b) Parallel forms	c) Test-retest reliability	d) Convergent reliability
----------------------------	-------------------	----------------------------	---------------------------

5. Perennialism is an educational philosophy of

a) New values	b) Future Values	c) Old values	d) Old and new values
---------------	------------------	---------------	-----------------------

6. If the content of a test looks as though it is measuring what it is supposed to, it is said to have high

a) Face validity	b) Criterion	c) Content	d) Ecological
------------------	--------------	------------	---------------

7. Which of the following steps begins the analysis of qualitative data?

a) Reading and memoing	b) Describing the content and participants	c) Classifying and interpreting	d) Data management
------------------------	--	---------------------------------	--------------------

8. Test item cannot discriminate low achievers and high achievers when its value is lower than?

a) 0.30-1	b) 0.30	c) 1	d) None of these
-----------	---------	------	------------------

9. The most important component of lesson plan is:

a) Objectives	b) Teaching Methods	c) Curriculum	d) Evaluation
---------------	---------------------	---------------	---------------

10. Which one of the following education systems supports scientific progress?

a) Naturalistic Education	b) Idealistic Education	c) Realistic Education	d) None of these
---------------------------	-------------------------	------------------------	------------------

11. The difference between maximum and minimum values is?

a) Mean	b) Mode	c) Range	d) None of these
---------	---------	----------	------------------

12. The statistic used for comparing two groups

a) ANOVA	b) Regression	c) Chi-square	d) t-test
----------	---------------	---------------	-----------

13. If care has been taken to ensure that a measure is measuring all aspects of something fully, it has high

a) Face validity	b) Criterion	c) Content	d) Internal
------------------	--------------	------------	-------------

14. The number of scores lying in a class interval is.

a) Mid-point	b) Quartiles	c) Class	d) Frequencies
--------------	--------------	----------	----------------

15. A multiple-choice question is composed of question referred as?

a) Stem	b) Distracter	c) Foil	d) Response
---------	---------------	---------	-------------

16. Which of the following is an excellent way to enhance the validity of observational and interview data collection?

a) Spend an extended period of time in the field	b) Obtain participant trust	c) Recognize your own biases	d) All of the above
--	-----------------------------	------------------------------	---------------------

17. A researcher wants to study the relationship of family size to income. He classifies his population into different income slabs and then takes a random sample from each slab in order. Which technique of sampling is he working with?

a) Cluster sampling	b) Random sampling	c) Stratified random sampling	d) Systematic sampling
---------------------	--------------------	-------------------------------	------------------------

18. The split-half method is used as a test of:

a) External validity	b) Internal reliability	c) Inter-observer consistency	d) constancy
----------------------	-------------------------	-------------------------------	--------------

19. The purpose of evaluation is to make

a) Decision	b) Prediction	c) Judgment	d) Opinion
-------------	---------------	-------------	------------

20. The concept of intelligence is closely related to:

a) Motivation	b) Learning	c) Perception	d) Cognition
---------------	-------------	---------------	--------------

21. Most IQ tests assess:

a) Academic motivation	b) Logical reasoning	c) Perceptual motor skills	d) Creativity
------------------------	----------------------	----------------------------	---------------

22. Procedure used to determine person abilities is?

a) Maximum performance test	b) Typical performance test	c) Norm reference assessment	d) Criterion reference assessment
-----------------------------	-----------------------------	------------------------------	-----------------------------------

23. The application of psychological theories, methods and techniques to solve practical human problems describes an area of psychology known as:

a) Social psychology	b) Para-psychology	c) Applied psychology	d) Humanistic psychology
----------------------	--------------------	-----------------------	--------------------------

24. Optimum difficulty level for maximum discrimination between high and low achievers is.

a) 0.2	b) 0.3	c) 0.4	d) 0.5
--------	--------	--------	--------

25. The test made to compare the performance of student with the other students is called?

a) Criterion reference	b) Achievement test	c) Norm reference	d) Standardized test
------------------------	---------------------	-------------------	----------------------

26. The test measures what we intend to measure. This quality of the test is called?

a) Reliability	b) Validity	c) Objectivity	d) Usability
----------------	-------------	----------------	--------------

27. The appearance of normal curve resembles with?

a) U	b) Bell	c) V	d) None
------	---------	------	---------

28. Student performance is compared with clearly defined learning tasks in?

a) Standardized test	b) Essay type test	c) Criterion referenced test	d) Norm referenced test
----------------------	--------------------	------------------------------	-------------------------

29. In norm referenced test the comparison is between?

a) Groups	b) Individuals	c) Areas	d) Interests
-----------	----------------	----------	--------------

30. In which question marking will be more reliable?

a) Completion	b) Short answer	c) Multiple choice question	d) Essay
---------------	-----------------	-----------------------------	----------

31. _____ education is institutionally organized and accredited but flexible:

a) Formal	b) Non-formal	c) Incidental	None of these
-----------	---------------	---------------	---------------

32. The oldest method in psychology is

a) Case study	b) Observation	c) Introspection	d) Clinical method
---------------	----------------	------------------	--------------------

33. Ideally, the research participant's identity is not known to the researcher. This is called:

a) Anonymity	b) Confidentiality	c) Confidentiality	d) Desensitizing
--------------	--------------------	--------------------	------------------

34. Increased exercise is likely to lead to a loss of weight is what type of correlation?

a) Strong correlation	b) Positive correlation	c) Negative correlation	d) Weak correlation
-----------------------	-------------------------	-------------------------	---------------------

35. The primary purpose of survey research is to

a) Determine and describe the way things are	b) Predict the way things will be based on the way things are.	c) Compare groups to determine differences	d) Find cause-and-effect relationships
--	--	--	--

36. Ms. Saba's discussion of her sampling design and data collection procedures is found in which section of her research plan?

a) Introduction	b) Methodology	c) Time schedule	d) None of above
-----------------	----------------	------------------	------------------

37. The size of sample depends on:

a) Population	b) Research Type	c) Researcher	d) Convenience
---------------	------------------	---------------	----------------

38. The ultimate focus of scientific method is on:

a) Hypothesis formulation	b) observation	c) Formulation of law/theory	d) Experimentation
---------------------------	----------------	------------------------------	--------------------

39. Philosophy and Curriculum are concerned with the question of what:

a) A man can become	b) Is the purpose of life	c) Are requirements of success	d) Was man in the past
---------------------	---------------------------	--------------------------------	------------------------

40. What are the three components of the educational process?

a) Direction, instruction and skill	b) Teaching, learning and practice	c) Teacher, student and education	d) Education, teacher and books
-------------------------------------	------------------------------------	-----------------------------------	---------------------------------

41. A curriculum is sum of school's efforts to influence a child's:

a) Personality	b) Attitude	c) Behavior	d) Action
----------------	-------------	-------------	-----------

42. The I.Q level of gifted students is:

a) 110 and above	b) 90 and above	c) 140 and above	d) None of these
------------------	-----------------	------------------	------------------

43. The base on which the subject activities and experiences are planned is called:

a) Lesson	b) Unit	c) Curriculum	d) Design
-----------	---------	---------------	-----------

44. Who raised the slogan "Back to Nature"?

a) Realism	b) Pragmatism	c) Naturalism	d) Existentialism.
------------	---------------	---------------	--------------------

45. The first step in conducting an experiment is

a) To collect data.	b) To setup a laboratory.	c) To formulate a hypothesis.	d) To interpret data.
---------------------	---------------------------	-------------------------------	-----------------------

46. Projective techniques are used to measure

a) Aptitude	b) Intelligence	c) Knowledge	d) Personality
-------------	-----------------	--------------	----------------

47. Action research is ordinarily concern with problems of

a) General nature	b) immediate concern and solutions	c) Constituting universal truths	d) long rang implications
-------------------	------------------------------------	----------------------------------	---------------------------

48. Kurt Lewin explored the following three leadership styles:

a) Autocratic, democratic and laissez faire.	b) Democratic, autocratic, employee-oriented.	c) Employee orientation, democratic and laissez faire.	d) Autocratic, high-high, and democratic.
--	---	--	---

49. According to the attribution theory of leadership, which of the following is not a character trait attributed to leaders?

a) Intelligence	b) Aggressiveness	c) Compassion.	d) Outgoing personality
-----------------	-------------------	----------------	-------------------------

50. Who emphasized that education should be a social process?

a) Vivekananda	b) Rousseau	c) Dewey	d) Pestalozzi
----------------	-------------	----------	---------------

51. The statistic used for comparing more than two groups

a) ANOVA	b) Regression	c) Chi-square	d) t-test
----------	---------------	---------------	-----------

52. Alternate-form reliability is also known as

a) Split-half reliability.	b) Parallel forms	c) Test-retest reliability	d) Convergent reliability
----------------------------	-------------------	----------------------------	---------------------------

53. Outcome of organizational commitment can be

a) High performance	b) Low turnover	c) Low absenteeism	d) All of above
---------------------	-----------------	--------------------	-----------------

54. If the content of a test looks as though it is measuring what it is supposed to, it is said to have high

a) Face validity	b) Criterion	c) Content	d) Ecological
------------------	--------------	------------	---------------

55. Which of the following steps is the last for the analysis of qualitative data?

a) Reading and memoing	b) Describing the content and participants	c) Classifying and interpreting	d) Data management
------------------------	--	---------------------------------	--------------------

56. Who emphasized that education should be a social process?

a) Vivekananda	b) Rousseau	c) Dewey	d) Pestalozzi
----------------	-------------	----------	---------------

57. Table of specification helps in

a) Testing	b) Observation	c) Measurement	d) Test development
------------	----------------	----------------	---------------------

58. Through which type of research people's opinions, views, perceptions, beliefs, attitudes are investigated?

a) Basic	b) Applied	c) Correlation	d) Descriptive
----------	------------	----------------	----------------

59. Projective techniques are used to measure?

a) Aptitude	b) Intelligence	c) Knowledge	d) Personality
-------------	-----------------	--------------	----------------

60. Pedagogy is the study of

a) Education	b) Learning process	c) Teaching methods	d) Guiding students
--------------	---------------------	---------------------	---------------------

61. Who raised the slogan "Back to Nature"?

a) Realism	b) Pragmatism	c) Naturalism	d) Existentialism.
------------	---------------	---------------	--------------------

62. In experimental research, what is the variable that the researcher manipulates or controls?

a) Independent variable	b) Dependent variable	c) Extraneous variable	d) Moderate variable
-------------------------	-----------------------	------------------------	----------------------

63. The efforts which a researcher makes to remove the effect of irrelevant or extraneous variable

a) Control	b) Manipulation	c) Randomization	d) All of above
------------	-----------------	------------------	-----------------

64. It is a process in which every number of populations has independent and equal chance of selection

a) Manipulation	b) Control	c) Randomization	d) All of above
-----------------	------------	------------------	-----------------

65. Kurt Lewin explored the following three leadership styles:

a) Autocratic, democratic and laissez faire.	b) Democratic, autocratic, employee-oriented.	c) Employee orientation, democratic and laissez faire.	d) Autocratic, high-high, and democratic.
--	---	--	---

66. _____ is a group or interest for the researcher

a) Population	b) Sampling	c) Sample	d) Procedure
---------------	-------------	-----------	--------------

67. It is a process of selecting a number of individuals for a study

a) Population	b) Sample	c) Procedure	d) Sampling
---------------	-----------	--------------	-------------

68. Probability sampling is also called

a) Stratified sampling	b) Cluster sampling	c) Random sampling	d) All of above
------------------------	---------------------	--------------------	-----------------

69. A research that is conducted for applying and testing of theories is called

a) Basic	b) Applied	c) Action	d) Descriptive
----------	------------	-----------	----------------

70. Case study is a type of _____ research

a) Historical	b) Descriptive	c) Qualitative Research	d) Quantitative Research
---------------	----------------	-------------------------	--------------------------

71. A study or research about people in their natural settings or culture

a) Basic	b) Action	c) Ethnographic	d) Descriptive
----------	-----------	-----------------	----------------

72. Convenience sampling is a type of

a) Probability sampling	b) Cluster sampling	c) Non probability sampling	d) Random sampling
-------------------------	---------------------	-----------------------------	--------------------

73. Tests that employ real life problems that the examinee is likely to face on the job are called:

a) Job tasks	b) Valid tests	c) Situational tests	d) Projective techniques
--------------	----------------	----------------------	--------------------------

74. In inductive method we proceed from

a) General to specific	b) Specific to general	c) General to General	d) Specific to specific
------------------------	------------------------	-----------------------	-------------------------

75. If the results of test and retest are the same it is infact

a) Objectivity	b) Reliability	c) Validity	d) Usability
----------------	----------------	-------------	--------------

76. Identify „uncountable noun“ in the following sentence: Sugar makes the cake sweet.

a) Sweet	b) make	c) cake	d) sugar
----------	---------	---------	----------

77. Match the word „dark“ with its correct suffix.

a) able	b) less	c) ish	d) ness
---------	---------	--------	---------

78. I know a person whose name is Sher khan. What is “Sher Khan” in this sentence?

a) Common noun	b) Abstract noun	c) Proper noun	d) Material noun
----------------	------------------	----------------	------------------

79. A letter is being written by Dawood. Change the voice.

a) A letter is written by Dawood.	b) Dawood has written a letter.	c) Dawood is writing a letter.	d) Dawood writes a letter.
-----------------------------------	---------------------------------	--------------------------------	----------------------------

80. “I have some big diamonds”. Change into negative sentence.

a) I had not big diamonds.	b) I not have big diamonds	c) I do not have big diamonds.	d) I does not have big diamonds.
----------------------------	----------------------------	--------------------------------	----------------------------------

81. The sentence which expresses a wish or pray is called _____.

a) Imperative sentence.	b) Optative sentence	c) Assertive sentence.	d) Exclamatory sentence.
-------------------------	----------------------	------------------------	--------------------------

82. If something is obvious it is _____.

a) clear	b) pleasing	c) true	d) wrong
----------	-------------	---------	----------

83. Never lose hope. The underlined word in the sentence is a/an noun.

a) Concrete	b) Abstract	c) Proper	d) Collective
-------------	-------------	-----------	---------------

84. Complete the following conditional sentence: If it _____, I _____ go for walk.

a) rain, will	b) rains, will	c) rains, would	d) will, rain
---------------	----------------	-----------------	---------------

85. Red rose is _____ than pink tulip.

a) more beautiful	b) most beautiful	c) beautiful	d) beautifully
-------------------	-------------------	--------------	----------------

86. If A is taller than B, B is taller than C, and C is taller than D, who is the shortest?

a) A	b) B	c) C	d) D
------	------	------	------

87. If $\times$ means +, - means $\times$, + means $\div$, and $\div$ means -, then what is the value of $8 \times 3 - 6 + 2 \div 4$?

a) 10	b) 12	c) 14	d) 16
-------	-------	-------	-------

88. Find the next number in the series: 2, 6, 12, 20, 30, ?

a) 36	b) 40	c) 42	d) 48
-------	-------	-------	-------

89. A is B's sister. C is B's mother. D is C's father. E is D's mother. Then, how is A related to E?

a) Grandmother	b) Granddaughter	c) Great-granddaughter	d) Daughter
----------------	------------------	------------------------	-------------

90. If FIRE is coded as 6973, WATER as 84239, how is EARTH coded?

a) 34957	b) 34579	c) 43975	d) 32495
----------	----------	----------	----------

91. Which number should come next in this series? 3, 6, 11, 18, 27,

a) 36	b) 38	c) 40	d) 42
-------	-------	-------	-------

92. In a certain language, if VICTORY is coded as YLFWRUB, how would SUCCESS be coded?

a) VXFFHV V	b) VXEEHV V	c) VYEEHV V	d) VYFFHV V
-------------	-------------	-------------	-------------

93. Find the odd one out: 16, 25, 36, 72, 81, 100

a) 25	b) 36	c) 72	d) 81
-------	-------	-------	-------

94. Find the missing number in the series: 2, 5, 10, 17,?, 37

a) 24	b) 26	c) 28	d) 30
-------	-------	-------	-------

95. A clock shows 8:30. If the minute hand points East, in which direction will the hour hand point?

a) South-East	b) North-West	c) South-West	d) North-East
---------------	---------------	---------------	---------------

96. Find the next term in the series: JAK, KBL, LCM, MDN,?

a) NEO	b) NEM	c) OEP	d) NEP
--------	--------	--------	--------

97. A man is facing north-west. He turns 90 degrees in the clockwise direction, then 180 degrees in the anticlockwise direction. Which direction is he facing now?

a) North	b) West	c) South-west	d) North-East
----------	---------	---------------	---------------

98. Which number should replace the question mark? 36: 49: 64:

a) 81	b) 100	c) 121	d) 144
-------	--------	--------	--------

99. In a row of children, Rahul is 7th from the left and 12th from the right. How many children are there in the row?

a) 18	b) 19	c) 20	d) 21
-------	-------	-------	-------

100. Which number should come next in this series? 3, 5, 8, 13, 21, ?

a) 34	b) 33	c) 31	d) 35
-------	-------	-------	-------
